Message from Jessica Dunbar, M.S.P.H., Executive Director

At Rocky Mountain Youth Clinics we are committed to delivering affordable, accessible, high quality services so kids and families can lead healthy lives. 2014 was a very successful year for the organization! We were able to support over 22,000 patients through our medical home model, expand our integrated oral, care management and behavioral health care programs across all our clinics and invest in critical technology software to improve our clinical efficiencies. I am excited to build on the strong foundation in place and I am confident we will be able to expand our reach to serve even more kids in future years.

SPECIAL PROGRAMS

REACH OUT AND READ

RMYC partners with Reach Out and Read, a literacy program that helps children prepare for success in school by providing books and having providers talk about the importance of reading at every Well Child visit.

INTEGRATED BEHAVIORAL HEALTH

We provide a range of integrated behavioral health services including early intervention, consultation, and education for youth and their caretakers during each visit.

TEEN HEALTH PROGRAM

We address the medical, social, emotional, and personal needs of the teen and allow teens to have private time with their provider.

ASTHMA CLINIC

We offer treatment options and education on the proper use of medicines, nebulizers, and inhalers.

ADOLESCENT TREATMENT

Our providers assess teens for risky behaviors and our staff provide services in other youth facilities across Colorado.

SMOKING CESSATION

Patients or parents who smoke are directed to Quitline referral forms and other educational tools to help them quit.

THRIVE CLINIC

A specialized team of health professionals provide nutritional advice, additional medical attention and free food to kids who need support to grow at a healthy rate.

POSTPARTUM DEPRESSION

We assess for the presence and degree of possible depression, provide resources, and refer mothers to mental health centers, support groups, and counseling.

HOLIDAY ASSISTANCE

We provide holiday assistance and a special holiday event for families at the end of the year.

GET FIT CLINIC

Our clinic provides care and education to kids with a high Body Mass Index. The focus is on healthy living through proper eating and exercise habits.

THREE MOBILE UNITS

Offering medical and preventive dental services to areas in need.
