

2017 ANNUAL REPORT

Making a difference with comprehensive, integrated care

Throughout 2017, we focused on expanding services, strengthening our coordinated care model and positioning the organization for the future. **Our commitment to and investment in a comprehensive model of care resulted in significant growth in our behavioral health, dental hygiene and social services programs, which are in high demand.** We also saw an increase in the number of uninsured children coming to our offices for care, as well as increased levels of fear among immigrant patients due to the political environment.

We conducted research to identify communities with high need and prepare to expand our services to those communities. This work led to the plan to open a new medical office in Lakewood. The organization also worked with stakeholders to clarify our brand and more effectively communicate our value to patients and partners, resulting in the decision to change our name to **Every Child Pediatrics**.

Impact

In 2017, we provided care to 20,575 children at 62,846 medical visits and provided over \$800,000 in uncompensated care to **1,868 uninsured patients.**

Our comprehensive services continue to grow:

4,243

behavioral health counseling sessions (+97%)

1,754

dental hygiene visits (+78%)

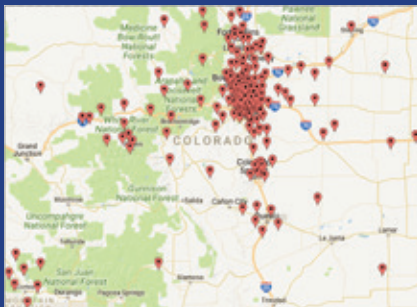

2,158

patients received social services help (+54%)

35,485

vaccinations (+21%)

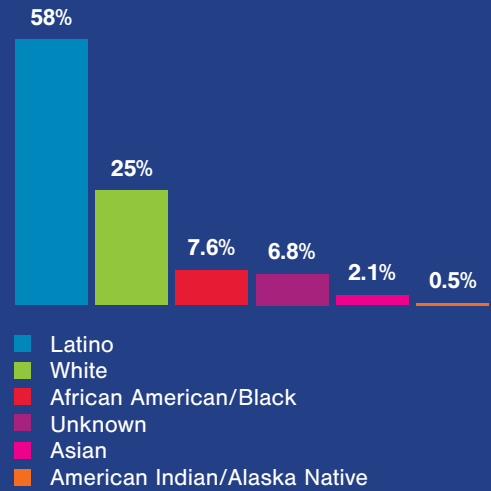

(Percentages are compared to 2016)

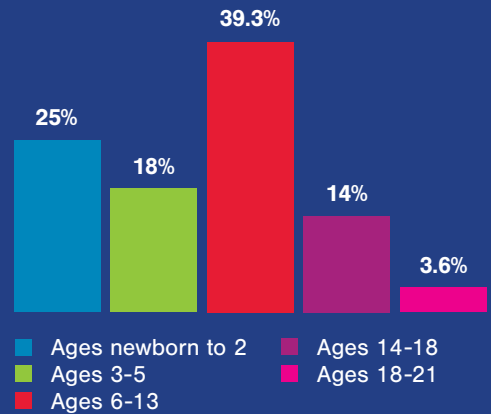

Our patients live in **230 zip codes** across Colorado, with the highest concentrations in Aurora, Thornton and other areas north of Denver.

Thriving with Our Support

Through a generous Community Stories project sponsored by Kaiser Permanente Colorado, RMYC produced a video about the Snyder-Eckenrode family. This Denver family has been bringing their three children to us for the last 15 years. All three children were born premature and have faced health challenges. They've benefited from our Care Navigator, food pantry and Thrive programs. The video can be viewed on our Facebook page or at <https://youtu.be/4RHeEIYIVrc>.

“When I look at my children today, I see the impact that Rocky Mountain Youth Clinics has had on my children. I see how much they’re thriving. They started out so small and now they are living beautiful lives.”

Stephanie Eckenrode

About Us

Rocky Mountain Youth Clinics (RMYC) was established as a non-profit organization in 1996 and is now the largest pediatric practice in Colorado, serving more than 20,000 infants and youth at three medical offices and nine school-based health centers in Metro Denver, Fort Collins, the west slope and southwest Colorado. Our experienced professionals focus on the child’s overall well-being, providing high-quality medical care, behavioral health counseling, dental care, nutrition, healthy lifestyle programs and connections to support services such as housing and transportation. More than 85% of our patients live in low-income households. In June 2018, the organization will open a new medical office in Lakewood and begin operating with the name **Every Child Pediatrics**.

How Your Support Helps Children

\$1000

pays for **10 well child visits** by patients who are uninsured

\$500

pays for immunizations for **16 children**

\$100

pays for **2 children** to receive dental cleanings or counseling
