PEDIATRICS

ECP-365

The Associate Board at Every Child Pediatrics

Professionals (under 40ish) amplifying ECP's mission 365 days/year

Overview and Commitment

The Every Child Pediatrics Associate Board is a diverse group of professionals under 40(ish) who are passionate about making a difference in the lives of Colorado's children and the state's largest pediatric non-profit. Through advocacy, fundraising, and networking, Associate Board members play a vital role in expanding the reach and impact of Every Child Pediatrics.

Why Join?

Join a dynamic community of professionals (under 40ish) dedicated to advancing the mission of Every Child Pediatrics and ensuring every child has access to quality healthcare—regardless of their ability to pay. As a member, you'll help expand fundraising capacity, support care for uninsured children across Colorado, and gain access to exclusive events, leadership development opportunities, and a powerful platform to create lasting change through philanthropy and service. You'll be a Champion for Children—365 Days a Year!

Ideal Associate Board Members:

- Passionate about advancing the mission of ECP and supporting its fundraising platform
- Well-connected in social and professional circles, eager to share the mission
- Interested in leadership development, networking, and philanthropy
- Committed to making a tangible impact through service and fundraising
- Looking for a meaningful experience to add to your professional resume

Commitment & Responsibilities:

To ensure an active and engaged Associate Board, members commit to:

- ✓ Attending the **Kickoff Event on Monday, April 28, 6:40 PM – Rockies Game, Box Suite**
- ✓ Attending bi-monthly meetings, gatherings, and/or socials
- ✓ Advocating for Every Child Pediatrics within personal and professional networks
- ✓ Planning and implementing a fundraising and engagement strategy for the **Champions for Children Charity 5K + Family Fun Run** (September '25)
- ✓ Giving back to the mission with a **\$365** annual donation (either through a one-time gift, \$30/month recurring donation, or leveraging an employer match)
- ✓ Attending Every Child Pediatrics events and bringing friends, family, and colleagues

IMPACT

Are you in?

This is an opportunity to elevate your network, amplify your influence, and make a lasting impact—all while having fun and meeting like-minded professionals.

Apply Now in less than 365 seconds!

We are looking for engaged and motivated individuals to join this movement. Apply today to become part of the Associate Board and help create a healthier future for Colorado's children.

OUR REACH & IMPACT

Our Mission – Every child, regardless of their ability to pay

We provide primary medical care and integrated services to every child, regardless of their insurance status or ability to pay. We seek out children living in the most vulnerable situations and build support around them, so they have a Medical Home. Every Child Pediatrics has been a critical part of the Colorado community since 1996, providing medical care, behavioral and mental health services, and other basic social supports to over 57,000 children under our care.

We never turn a child away.

Colorado's Largest Safety Net Clinic for Children

4 traditional pediatric clinics

8 school-based health centers

60,000 patient encounters each year

57,000 children served across our clinical footprint

61,000 children in Colorado currently living without insurance

2 clinics for unhoused children and teens at Samaritan House and Urban Peak Shelters

Important Aspects of Our Mission

Care Navigation Services: Our in-house care navigators serve as case workers and referral specialists to ensure all families have vital resources to help their children thrive. Care Navigators arrange transportation to specialty clinics, ensure referrals to specialty hospitals are expedited, and work with the Colorado medical community to help children without insurance access specialty care, even when some providers may limit their Medicaid and uninsured patients.

Integrated Behavioral and Mental Health Services: We've seen a significant growth in depression screenings and referrals to behavioral health providers (BHP), and this has caused us to scale up our in-house services. Each clinic has a BHP, and we partner with several third-party agencies to provide onsite behavioral health services for our patients.

School-based Health Centers: School-Based Health Centers (SBHCs) are essential to Colorado's healthcare safety net. They are located inside or on school grounds and are staffed by providers from various disciplines. The health centers are designed to serve students with limited access to care, often because they are low-income, uninsured, or live in isolated areas - 95% of the patients accessing ECP's SBHCs come from low-income families.

Special Needs Population: Our model of care is to provide the time and additional attention to every child, as our patient population comes to us with complex needs beyond typical medical routines. We specialize in patients with greater needs, and we have several providers specially trained to care for children with special needs, such as autism, Down Syndrome, and other neurodevelopmental disorders. Our goal is to meet all needs and help children thrive in all aspects of life.
